

HEALTH MATTERS

NHS App

Owned and run by the NHS, the NHS App is a simple and secure way to access a range of NHS services on your smartphone or tablet. You will need to prove who you are to get full access to the NHS App. With full access you can:

- order repeat prescriptions and nominate a pharmacy where you would like to collect them
- book and manage appointments
- view your GP health record to see information like your allergies and medicines (if your GP has given you access to your detailed medical record, you can also see information like test results)
- book and manage coronavirus (COVID-19) vaccinations
- register your organ donation decision
- choose how the NHS uses your data
- view your NHS number
- use NHS 111 online to answer questions and get instant advice or medical help near you

Before proving who you are, you can use the NHS App to:

- search trusted NHS information and advice on hundreds of conditions and treatments
- find NHS services near you

Keeping your data safe

To access the NHS App, you will need to set up an NHS login and prove who you are. Your NHS App then securely connects to information from your GP surgery.

If your device supports fingerprint detection or facial recognition, you can use it to log in to your NHS App each time, instead of using a password and security code.

PATIENTS/VISITORS MUST OBTAIN A PARKING PERMIT BY REGISTERING ON THE TOUCH SCREENS INSIDE THE PREMISES AND ENTER THEIR FULL CORRECT VEHICLE REGISTRATION

North Street
Calne
